Dear Members and Friends:

As I write this letter in late February, I am delighting in the early spring that seems to surprise me every year. Although I've lived in northern CA for more than 30 years, I still marvel at the flowering trees and jasmine scents that remind me I'm not in Michigan anymore!

March also marks Sarah Kent's return from maternity leave; now the proud mama of two young red-headed boys, Rowan and Finnegan. We’re thrilled that you’re back, Sarah! At the same time, we say goodbye to Rachel Lanzerotti and Camille Clay who stepped in and kept programs on track without a hitch. Their joyful partnership is a beautiful illustration of the love San Francisco Village creates.

We’re sad to say goodbye to Sara Roliz, Operations and Advancement Manager, who has provided SFV with some much-needed operational infrastructure. Thank you, Sara, and best wishes in your future endeavors!

About a year ago, Jessica Da Silva joined the team as Wellness Coordinator. She works closely with the staff at the ACE Unit (Acute Care for the Elderly) CPMC Mission Bernal Campus to enroll recently discharged patients in a 90-day SFV membership, in order to provide a smooth transition from hospital to home. This is a benefit available to ALL members, regardless of what hospital you use. So, if you're planning a hospitalization or preparing for a discharge, call Jessica for some care coordination, such as volunteers, referrals and moral support. In fact, we're offering a tour of the ACE Unit on March 5, complete with lunch. Be sure to RSVP!

Hope to see you soon!

Warm regards,
Kate

Learn about a wonderful new program in the Netherlands that teaches older adults how to fall. And then in March and April you can do the 5-week program!

Using videos of participants in the Netherlands, Penny Sablove, PT, will describe this program as well as the impressive research findings about its effectiveness. On top of being effective, it’s a lot of fun. Participants practice falling skills on very soft mats several feet thick, starting from sitting and progressing gently to falling from a standing position. The course includes skills of navigating very realistic, everyday obstacles safely – cracks in the sidewalk, slippery surfaces, stones that shift underfoot, etc.
SFV members who have participated in previous Falling Less programs will be present to describe their experience and answer questions. Penny Sablove, PT, received training in the Netherlands and is certified in this Dutch method.

For a fuller description of the program, see the January 2nd 2018 article in the New York Times: https://www.nytimes.com/2018/01/02/world/europe/netherlands-falling-elderly.html

The Use of Indigenous Carvings for Healing and Problem-solving

Monday, March 23, 2:00 – 4:00pm
SFV, 3220 Fulton St. at 8th Ave
RSVP to (415) 387-1375 or info@sfvillage.org

This experiential seminar will be a brief introduction to the use of fetish carvings for the restoration of personal power. Although most cultures have at some time employed power objects, their usage in Native America has been uninterrupted and is alive and vibrant today. You may already be aware of the popular Zuni fetishes which are valued both as healing tools and as art.

In this class we will work with tiny traditional stone carvings to acquire insight into the ingenious use of consciousness for problem-solving that has been cultivated and refined among aboriginal cultures world-wide. Please note that there will be brief periods of drumming with a handheld drum during the workshop. Prior to attending, participants are encouraged- but not required- to lightly reflect upon a dilemma or "stuck place" they would like to approach in a novel way.

Dr. Leslie Gray is a Native American Clinical Psychologist with a private practice in San Francisco. She teaches Native American Studies, Consciousness Studies, and Ecopsychology at numerous universities; and she offers popular workshops locally and internationally. Leslie is the founder/director of The Woodfish Foundation (www.woodfish.org) and is currently Vice President of The Association for Transpersonal Psychology. Leslie has spent many years learning from indigenous healers and elders cross-culturally, and her work is a unique blend of Indigenous and Western perspectives.

April 1 & 15 - Technology Forum: Take the Dread Out of Tech, with Tim

Would you love to take the dread out of tech? Studies show that the effective use of technology improves our overall quality of life! SFV volunteer Tim McShane leads this introductory forum where we share our tech challenges, discover common pain-points, and discuss possible solutions. This workshop will continue bi-monthly on Wednesdays; the content for each class will be based on member feedback relating to tech learning.

Tim McShane has an MS in Computer Science. He worked in aerospace for a brief period. He then worked in the tech industry for thirty-five years selling computers to companies such as Pacific Bell, Safeway, Chevron and McKesson. Upon retirement, he worked for non-profits helping people find jobs by teaching courses in basic computer skills which included Windows, Word, Excel, Internet and Email. Join us at SFV from 1-3pm. Now accepting RSVPs.

April 5 - Dementia Caregivers Wellness Day

A day of wellness for family and friends who care for a loved one with dementia: Family caregivers are invited to participate in various wellness related activities that can help boost your resilience and sustain your wellness. The day will offer four sessions, during which you'll have a chance to experience different ways to practice self-care. You will leave feeling energized, relaxed, and inspired to pursue one or more of these practices throughout the year.

San Francisco Village is a sponsor of this collaboration between the Presence Care Project and Zen Caregiving Project along with the Ray Dolby Brain Health Center and Family Caregiver Alliance, with donations in kind by two restaurants and respite grants from the Alzheimer’s Association.
