Dear Members and Friends:

Every now and then it’s good to be reminded of what we thought we knew, but maybe forgot. Like all the different ways you can use your San Francisco Village membership. When you first joined, you might not have been thinking about a change in health condition or the documents that need organizing. But with time, circumstances change. We want you to feel prepared for whatever lies ahead. Knowing that you’re connected to a caring community dedicated to your well-being is a good start.

The first of October, Jill Ellefsen and I will meet with you via Zoom to talk about how to get the most out of your membership. We’ll talk about referrals, counseling, volunteer connections, programs, and most importantly, our relationships with each other. Whether you’re a new member or you’ve been a member for over a decade, we’re sure you’ll hear something new or be reminded of that forgotten resource at just the right time. Zoom in with us on October 1st!

Also this month we’ll hear from an attorney about Advance Planning, a social worker about Palliative Care, and a new technology company called My Nurse that helps you manage chronic conditions from home. To feed our souls, Evan Johnson is teaching a new theater class about how to tell your own story; Rachel Lanzerotti is leading us in an autumn equinox gathering; and there is an ongoing group of us meeting to learn about race and racial equity. You’re welcome to join us!

Our small but mighty staff is experiencing some transitions this month and I’ll ask for your patience up front. I’m taking a two-week vacation (driving to Yellowstone with my older daughter - yay!) followed immediately by Jill taking off a week. Jessica is coming back to work on the 2nd after a three-month maternity leave and her replacement,
Karina, will be leaving us. Finally, we hired a full-time administrative assistant named Nidhi Patel. Please help me welcome her!

We’re living through some extraordinary times, aren’t we? I can hardly catch my breath somedays with news of another crisis. I’ve taken to skimming the headlines and reducing TV news to 30 minutes. I’m reading a lot about social healing and researching life-affirming strategies for building a better world. I found this amazing video yesterday that I think you will love. It’s called Resilient by Rising Appalachia. It awakens me to the wisdom and brilliance of younger generations and why we need to listen to them.

If you have any strategies getting you through these gut-wrenching times that you would like to share, please email me.

With hope and appreciation,

Kate

**Did You Know?**

**Welcome Nidhi!**

Nidhi Patel is the newest employee at San Francisco Village as the full time administrative assistant. We’re thrilled to have her on the team and hope you get a chance to meet her soon, whether in person, on zoom, through email, or on the phone. You can reach her by emailing nidhi@sfvillage.org or (415) 387-1375 ext 5.

Throughout most of my life, I’ve found myself moving every few years from one town to another. Having had the opportunity to live in various communities around the country, each vibrant and lively in their own way, I met a myriad of people who each had a story to tell and love to share. Ultimately, it was this joy that I found from meeting countless individuals and cultivating relationships with many communities that led me to pursue an undergraduate degree in Marketing while at SFSU. I hope to use my experiences and background to share the stories of as many communities as I can.

Outside of my professional career, I enjoy reading, exercising, exploring the outdoors, and adventuring to discover new chocolate shops. I have been dancing from a very young age and consider it to be one of my favorite pastimes as well. Having been involved in various dance groups/communities in the past, I’ve come to value it quite a bit in life.
Holiday Closure + Staff Vacations
The San Francisco Village office is closed Monday, September 6 in observation of Labor Day. Several staff members are also taking vacations in September--thank you for your patience and understanding as we cover for each other to make sure all get much needed time off!

Have an iPod You Are No Longer Using?
Let’s give them a new home and help bring music to those in need. As more and more people switch their music collections from music players to smartphones, there’s a growing supply of second-hand music players. We want to put them into the hands of elders who can really benefit from the healing power of their favorite music and keep these devices out of landfills. Music & Memory is a non-profit that brings the joy of personalized music to individuals living with Alzheimer’s, dementia, and other cognitive limitations. Any type of listening device that is no longer being used but still works will do. iPod Chargers and cables are also appreciated. Once iPods are received, they will be cleaned, erased, and re-assigned to caregivers and nursing homes where they will change lives for the better— a true miracle. Send in Your Requests: October Day of Service
Saturday, October 9, 11:00 AM – 3:00 PM
We are now taking submissions for an upcoming Day of Service in October. They will be available to tackle requests such as gardening projects, tech tutoring/troubleshooting, light cleaning (like windows or a fridge clean out) organizing assistance and more. If you have a task that could be handled by a team of 2 people that would take about 3-4 hours, email the details to jill@sfvillage.org. Slots will fill up fast, so get your requests in early. All volunteers from HKS will be background checked and will submit proof of Covid vaccination prior to service.

Let’s get moving again, and let’s have fun doing it. What capacities do we need to refresh, in order to venture safely outside our homes again?

We’ll practice increasing balance, strength, endurance, power in our gait and ease of movement. And we’ll do this with each other, that potent ingredient we thankfully have access to again. And while we’re at it, we will explore reconnecting with others through human touch, giving and receiving, and coming fully alive to each other again.

Penny Sablove is a physical therapist who specializes in improving the mobility of seniors. She developed senior programs to improve balance, gait, agility, endurance and strength for over 20 years and has developed programs for Kaiser Permanente and Osher Livelong Learning Institute. **Advance Planning**
Tuesday, September 14, 11:00 AM – 12:00 PM
Zoom
RSVP to (415) 387-1375 or info@sfvillage.org

A way of thinking of advance planning is to look at it as dictating how your personal and financial affairs will be managed should you become unable to do so yourself. This can become necessary should one lose the mental capacity to manage their affairs or if they are not physically available to do so.

In this session, we’ll discuss the fundamental advance planning documents, durable powers of attorney for health care and finance, the use of trusts other more informal arrangements. This will include a discussion of who to nominate as your agents or trustees, including the nominations of professional fiduciaries. Lastly, we’ll discuss conservatorships as the alternative of last resort to managing the affairs of a person who has lost the capacity or is being subject to undue influence and does not have any effective advance planning documents in place.

These topics have been a large part of the Kato, Feder & Suzuki LLP law practice for over 40 years. Brent Kato and Bruce Feder started their firm in 1987 after working together at Legal Assistance to the Elderly for ten years. Their practice has focused on legal issues affecting the elderly as well as
general estate planning and administration. Primary areas of practice also include conservatorships, long term care planning, special needs planning and probate. Please visit www.kfslaw.net for more information about their practice and attorneys.
